

Presentation and objectives :

The 3rd edition of the International Conference "Scientific Days in Applied Sciences - JSSA'19" organized by the Faculty Polydisciplinaire Larache aims to bring together the scientific and professional community in the themes of applied sciences to contribute to the evolution and the progress of scientific research in Morocco. These days will be an opportunity to meet, exchange experiences between researchers from Moroccan and foreign universities and industry, and debate around the main lines of research.

Topics :

- Artificial Intelligence and Neurons Computing
- Big Data Analytics
- Smart City
- Internet of Things and Ambient Intelligence
- Computer Vision and Image Processing
- Decision Information Systems
- Logistics and Transport
- Sensor and Telecommunication Networks
- Linear, nonlinear PDE and their applications
- Operational Research
- Operator Theory
- Modeling and Numerical Simulation
- Numerical Methods
- Stochastic calculation applied to finance
- E-learning
- Inverse Problems

Chairs : - Pr. Chakir TAJANI (FP, Larache) - Pr. Otman ABDOUN (FP, Larache)

Contact : Abdelmalek Essaâdi University, Polydisciplinary Faculty Larache
